

INDOOR GARDEN LIGHTING

Northern Lights offers state of the art lighting systems. We have CFL & T5 fluorescent lights, HID, LEC (CMH) & LED lighting.

Since your lights are the most important part of your plants life, you want to ensure your plants get the right amount, the right colour (K) and the best coverage as possible. Modern lighting systems are energy efficient, economical, safe and user friendly. Most systems are “ Plug n Play”and require no hard wiring.

We offer the best manufacturers warranties available. We service what we sell and most importantly we will provide loaner lighting for your plants if we cannot repair or replace your lights that day.
